

Smart Countertop RO System Water Filter Reverse Osmosis Purifier Machine

Our Product Introduction

for more products please visit us on envi-tek.com

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: AR304B-75G
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 10000 PCS/MONTH

Product Specification

- Material: ABS
- Color: White Or Customize
- Installation: Desktop
- Application: Home
- Function: Water Purifier
- Custom: Accepted
- Highlight: countertop ro system Purifier,
countertop ro system RO Purifier,
countertop water filter reverse osmosis
Machine

Product Description

Countertop RO Water Machine: The Creator of Pure Water Source

The countertop RO water machine is the water purification star in your kitchen.

It has an exquisite appearance, is small and exquisite, and is like a meticulously carved artwork. Placed on the countertop, it is both practical and beautiful.

The RO reverse osmosis technology it adopts is like an accurate screening master, which can accurately distinguish water molecules from harmful substances and only let pure water pass through.

At the same time, it is equipped with multiple filter elements that work together to form a powerful filtration lineup. The PP cotton filter element initially filters large particles, and the activated carbon filter element further purifies odors and residual chlorine to ensure that every drop of water is pure and flawless.

This water machine also has an intelligent monitoring function, always paying attention to the water quality and the operating status of the machine, allowing you to use it without worry.

Suppose you are a person who pays attention to health, the high-quality water source it provides will be a powerful guarantee for your life; if you are a food lover, the delicacies cooked with the water processed by it will be more delicious.

The countertop RO water machine creates high-quality pure water sources for you.

Product Specification:

Model	AR304B-75G
Filtration Capacity	11.8L/h
Rated Power	48 W
Purification Capacity	1.2L
Source Water Tank	5.0L
Product size	L461*W236*H411mm

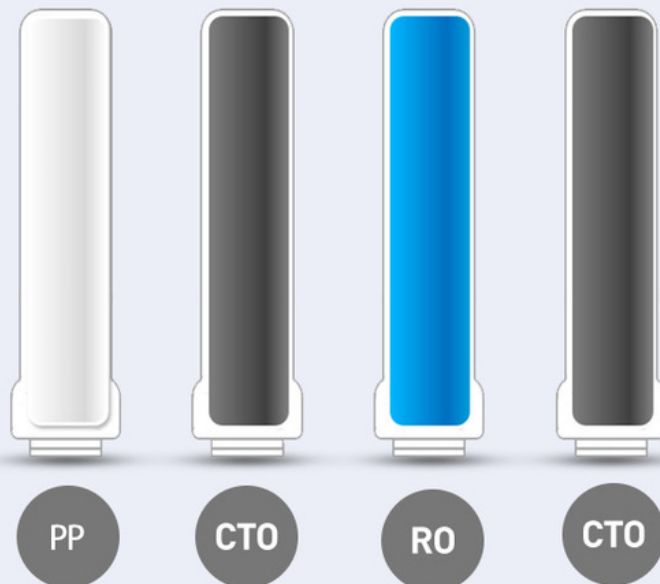

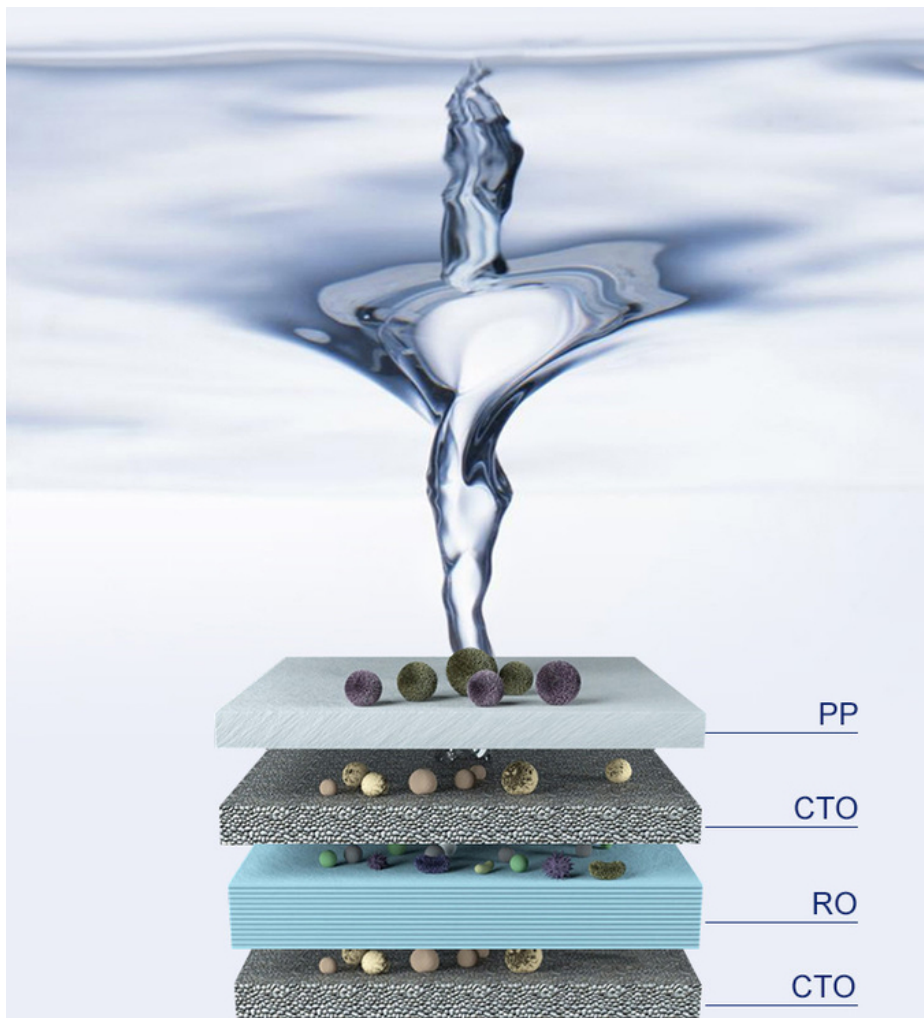

Product Features:

- Counter top reverse osmosis water filter system with pitcher in one full set
- No assembly required, no installment, easy to use
- 5 Levels of filtration, removes up to 99% of all contaminants
- 4 stage water temperature with instant heating system in 3 seconds
- Quantitative water setting: 150ml/250ml/Continuous
- LED screen displays real time filters status and TDS value
- Water-saving designed
- UV C light: removal of bacteria, viruses, and mold spores
- Wi-Fi for option

Food Waste Disposer Principle:

5 Stages Filtration System

5 Levels of filtration, PP+Composite CTO+RO+CTO,
bring you unlimited ultra-fresh, clean, great-tasting water

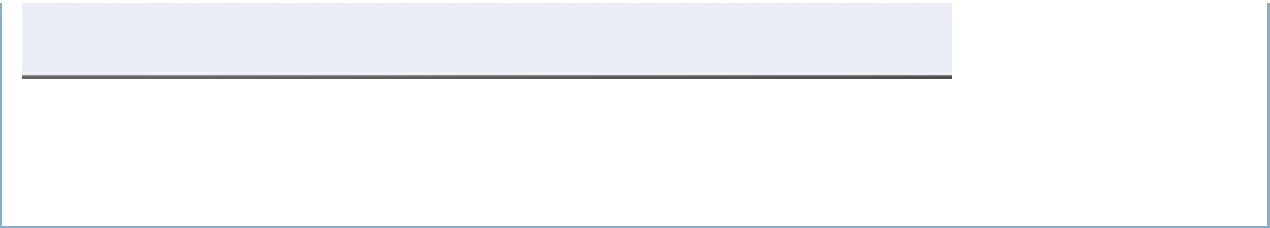

Stage1:Pre-filter (PP) removes big particles of dust, mud and rust stains.

Stage2 and 3:The Composite CTO filter eliminates unseen dregs and harmful odors.

Stage4:The High grade 0.0001 micron RO filter removes up to 99.9% of contaminants including chlorine, lead, heavy metals, fluoride, VOCs, chloramine, etc.

Stage5:The post-carbon filter (CTO) help improve the taste of the water
