

Eco - friendly Hepa Filter Air Purifier with Filter Reminder White Color

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: KJ050GE-C7
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 30000 PCS/MONTH

Product Specification

- Name: Home Use Air Purifier
- Color: White Or Black
- Control: Touch Control Panel
- Voltage (V): 100-240V 50/60 Hz
- Type: Hepa-Filter
- OEM&ODM: OK
- Highlight: eco friendly hepa filter air purifier,
hepa filter air purifier white color,
desktop hepa filter air purifier

Press for strong - power mode when the air's bad , or switch to sleep mode at night. It's super quiet, under 30 decibels

. The intelligent mode adjusts the speed based on air quality.

It also has a night light for night - time use and a filter - change reminder.

And the best part? It's energy-efficient, costing only a few dollars a month to run. Stop suffering from bad air. Get this purifier and breathe easily!

Product Specification

Model	KJ050GE-C7
Sound Level	<=55dB(A)(Max)
Rated Power	10.5 W
CADR rate	50CFM (85m³/h)
Product size	φ200*H254mm
Area coverage	6-10 m²

in air purifiers. The Hepa filter is composed of very fine organic fibers interwoven together, has a strong ability to capture fine particles, has tiny pores, a large adsorption capacity, and a high purification efficiency.

The working principle of the Hepa filter is that when the air

containing dust particles passes through the Hepa filter, the suspended particles in the air will be blocked outside, thereby playing the role of filtering and purifying the air. It can effectively filter particles of 0.3 microns in the air. The filtering effect on particles $\geq 0.3\mu\text{m}$ can reach 99.

9%, and the filtering effect on PM_{0.1} particles can reach 99.99%.

The higher the grade of the Hepa filter, the better the filtering effect. Generally, air purifiers on the market use filter elements of grades H12 and H13. Hepa filters can also be combined with other filtration

technologies, such as activated carbon filtration, to improve the performance of the air purifier.

KJ050-GE-C7 HEPA-type filter

Pre-filter blocks large airborne pollutants **HEPA filter** kills more than 99.5% of tiny airborne pollutants **Activated Carbon filter**
